

I am a CG Generalist and hope to put my skills to good use in a practical manner. I am adept at the large majority of the Adobe Creative Suite and use many Autodesk programs for my work in 3D and 2D. I am capable in every part of the 3D Pipeline, from rigging to rendering. In my spare time I like to play rugby for my local team and have done since under 13s. I keep up with technology and film and always have my eye out for something that may be of use to me.

<b>Education</b>	
UWE Bristol	Animation BA (Hons) First Class Degree
U.S SAT Scores	1690 (old SAT)
<b>Experience</b>
